FOR IMMEDIATE RELEASE

DIRTT and Spider Announce Acquisition

February 7, 2008

CALGARY, AB: DIRTT Environmental Solutions Ltd. (“DIRTT”) announced today it has reached final agreement to purchase 100% of Spider Manufacturing Inc. (“Spider”) of Kelowna, B.C. The combination will allow Spider to leverage the sales and marketing capabilities of DIRTT and further the combined product development activities the two companies were already partnering on. DIRTT intends to provide significant investment in Spider operations in Kelowna and Spider will continue to operate as a completely separate subsidiary under independent current management.

“Spider is an excellent fit with DIRTT,” said DIRTT CEO Mogens Smed. “Spider is the pioneer for sustainable, modular power solutions in North America. Plus we have existing relationships from our ongoing partnerships. It is an exciting day for both companies.”

“This is a great opportunity for Spider’s employees, clients and suppliers,” said Spider co-owner Gord Almond. “We are proud to be a part of the DIRTT team.” Spider co-owner Cathy Almond agreed, “Spider will be taken to the next level, further increasing leading product design and customer service.”

*Founded by Mogens Smed and headquartered in Calgary, Canada, **DIRTT Environmental Solutions** started manufacturing Agile Architectural Solutions in May 2005. It has since gone on to become the biggest month-to-month movable wall manufacturer in North America. It is the first company to use interactive video gaming software to envision, price, manufacture, deliver*
