

# DIRTT

face mounted tiles

# THERE ARE NO PASSENGERS ON SPACESHIP EARTH WE ARE ALL CREW

- *Marshall McLuhan*

In these walls you'll find the answer to true sustainability. The DIRTT Face-mount Walls bring opportunities to horizontally support all new and legacy furniture, appliances and fixtures. Each wall side performs independently of the other. Tiles can be altered and switched out for small changes and the entire wall can be reconfigured for large changes. Never losing the ability to support the modules it supports or damaging power and data running inside it.

## DIRTT ENVIRONMENTAL SOLUTIONS

The DIRTT Face-mount tile Walls offer another way to provide environmentally sensitive solutions for space. A single-sided version can act as a curtain over any base building wall. This gives you the chance to choose the most efficient real estate and thereby limit your own sprawl. It opens up a world of functional and aesthetic opportunities where there were none before. Add power, data, furniture support, A/V, run offices off of it, surround columns with them... You can turn any sow's ear into a silk purse.
